

SUPPORTING INFORMATION

Spatial ecotoxicology: migratory Arctic seabirds are exposed to mercury contamination while overwintering in the Northwest Atlantic

Jérôme Fort, Gregory J. Robertson, David Grémillet, Gwendoline Traisnel, Paco Bustamante

3 pages containing Supporting Figures S1, S2

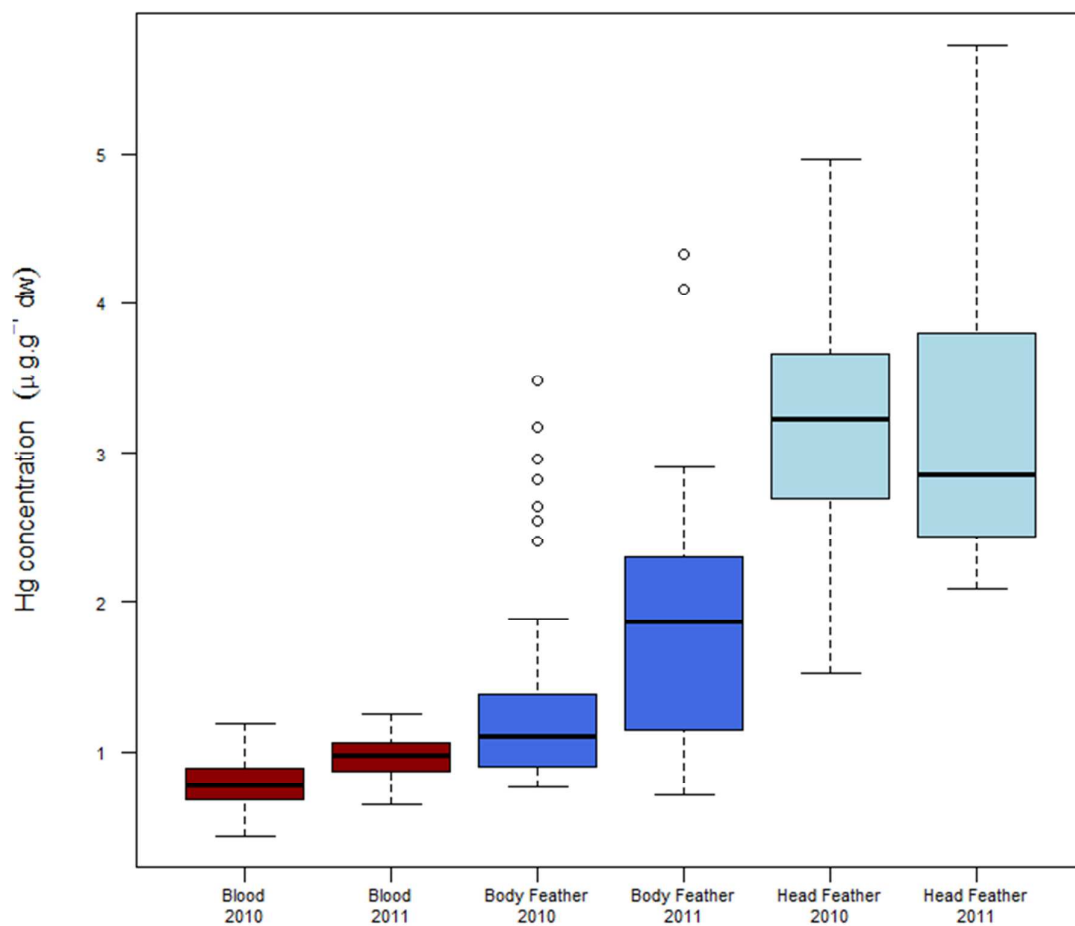

Figure S1. Annual differences in Hg concentrations (in $\mu\text{g.g}^{-1}$ dry weight) measured in little auk blood and feather samples.

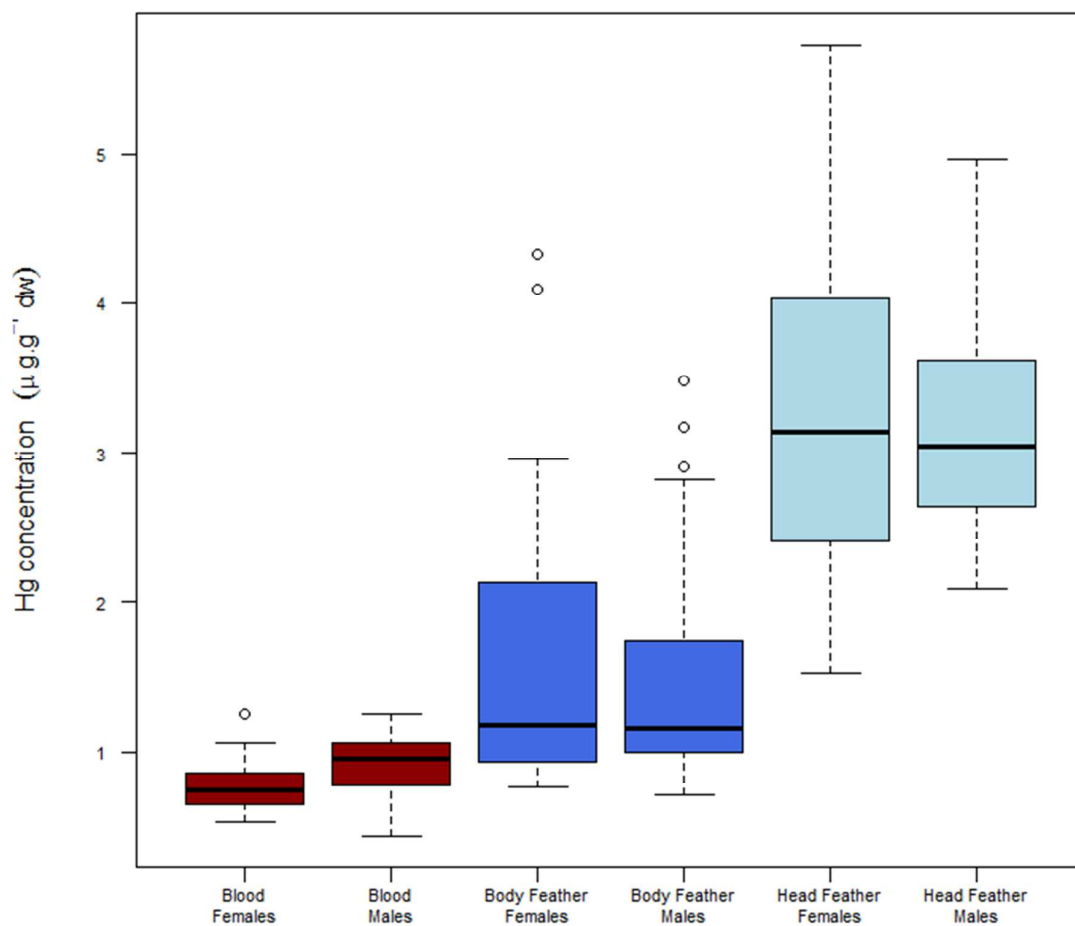

Figure S2. Sex differences in Hg concentrations (in $\mu\text{g.g}^{-1}$ dry weight) measured in little auk blood and feather samples.
